

PURONICS® Clarius™ iGen® CP

Pure Water Solutions®

Reduce Chloramine and Chlorine in Your Water with the 'Green' Solution for Budget-Minded Consumers

Puronics® Clarius™ iGen® CP whole-house Chlorostatic® water filter system incorporates advanced 'Green' technology and ChloroShield™ Clearess® media to produce crystal clear water with reduced levels of Chloramine and Chlorine...with No Salt and No Chemicals. Chloramine (a combination of ammonia and chlorine) is very corrosive to copper and lead pipes and could have potential side effects for people and fish. The intelligent iGen® control valve ensures you will enjoy the benefits of high quality water with minimal environmental impact.

Hair and skin are clean and silky

Food tastes better

Healthier for Pets

Better tasting beverages

PURONICS® Clarius™ iGen® CP

Pure Water Solutions®

Green Technology

- ▶ No Salt!
- ▶ No Potassium!
- ▶ No Chemicals!

Patented iGen® Computerized Control Valve

- ▶ iGen® intelligent digital microprocessor controls system operations
- ▶ Maintains 60 days of water usage history to maximize backflush/recharge efficiency
- ▶ Built-in diagnostics ensure consistent superior quality water
- ▶ Creates auto reserve so you never run out of quality water
- ▶ Durable, corrosion resistant 1" control valve construction guarantees years of trouble-free, efficient operations

iGen® Digital Control Valve

Multi-Layered Tank

- ▶ Inner layer of Polyethylene
- ▶ Durable outer fiberglass layer

Chlorostatic® Technology Filter

- ▶ ChloroShield™ Clearess® media effectively reduces chloramine and chlorine from municipal water supplies
- ▶ Reduces objectionable chlorine and chloramine odor and taste
- ▶ Optimal efficiency reduces system operating costs

Filter

- ▶ Purifex® media uses green technology to filter water, making it smooth and gentle while leaving the healthy minerals such as Calcium and Magnesium in your water

Sediment Filter

- ▶ AltaPure® effectively removes suspended solids as small as 5 microns

Clarifier

- ▶ Silica gravel polishes water to a sparkling clarity

Chlorostatic® Technology At Work In Your Home

- ▶ ChloroShield™ Clearess® filter media incorporates Chlorostatic® Technology to effectively reduce chloramine and chlorine from every tap in your home. ChloroShield™ Clearess® filter media has a limited lifetime warranty and eliminates the need for filter changes.

Quality You Can Count On

- ▶ Limited Lifetime Warranty on the entire water system. Covers manufacturing defects and workmanship

Clarius™ iGen® CP is not a water softener and does not remove hardness from the water. Contaminants or other substances which can be removed by the Puronics® Clarius™ iGen® CP system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.

This system is designed for use with municipal water or private well water that has been disinfected with chlorine or chloramine. Chloroshield™ Clearess® Media will reduce chloramine/chlorine taste and odor for up to 4,000,000 gallons of municipal water at normal service flow rates.* Normal residential chlorine or chloramine level is 0.5 to 1 ppm. Higher levels of chlorine or chloramine may reduce the life of the media. Any private well application without chlorine or chloramine should use the base version of this system without Clearess®.

*NSF/ANSI 42 testing was performed at 2.0 ppm chlorine concentration, yielding the above extrapolated capacities for lower influent concentrations.
